Speaker Biography:

Dr. S. Thikkurissy is Professor and The Robert Creedon Endowed Chair of Dentistry at Cincinnati Children's Hospital. Thikkurissy obtained his certificate in pediatric dentistry/master's degree from The Ohio State University. Thikkurissy is a diplomate of the American Board of Pediatric Dentistry and is chair of the AAPD Committee on Sedation and Anesthesia, and AAPD representative on the ADA Committee on Dental Education and Licensure group on Sedation. Additionally, he has served on the American Board of Pediatric Dentistry Examination committee. In 2017 he was named the AAPD Pediatric Dentist of the Year award, and in 2019 was named the Aubrey Rose Foundation 'Above and Beyond Doctor' for his work with special needs populations. He has lectured nationally and internationally, and has published in the areas of; morbidities, quality of life and pain management in children.

Topics:

Pediatric Procedural Sedation: Evidence and Experience

Course objectives - Attendees will be able to

- Describe what levels of evidence are available regarding procedural sedation in children
- Discuss practices that may be based on clinical experience and limitations

Procedural sedation in children is an advanced behavior guidance technique. Both the AAPD and AAP have statements of best practices. This talk will dive into what levels of evidence are available and limitations of evidence. Additionally, practices that are common in pediatric dental sedation that may not be based in evidence will also be examined and discussed in light of what evidence and trends have been observed.

Integrating Practical Oral Health Recommendations into Special Needs in Epidermolysis Bullosa and Bone Marrow Transplantation

Course Objectives - Attendees will be able to

- Understand pathophysiology of (EB) and Bone Marrow Transplantation related illness
- Understand how basic oral health practices can be worked into a complex medical plan of care

Patients with special medical needs often have issues that complicate the delivery of basic oral health care. This lecture will use Epidermolysis Bullosa and Bone Marrow Transplantation as case studies in the complexities of oral hygiene instruction and potential barriers.

Registration Form

Cost

**Early Bird Before August 23rd
MdAPD Members & Staff - \$350**

After August 23rd

MdAPD Members & Staff - \$375

Non-members - \$450

Residents/Fellows - \$160
